Music festival features students of all ages

By Amy Cherry, Staff Writer

An All District Music Festival featuring choirs and concert bands from the three elementary schools, middle school and high school was held Tuesday evening at St. Marys Area High School. The festival was held in conjunction with Music In Our Schools Month and featured students in grades 4-12. About 200 students of all ages crowded onto the auditorium stage at the start of the festival for the performance of the national anthem and alma mater.

The festival opened with the middle school choirs singing "Estafanones Vasco," followed by the high school concert band, under the direction of Christopher Gandesbury, performing "Polly Oliver" and "Tribute." The elementary choir then performed "Old Joe Clark" as well as "Whoo Wheat" and "He Lives in You," composed by choirmaster Tiffany Gump.

The group is under the direction of Amy Sines.

PARKING DISCUSSION TURNS INTO DEBATE DURING COUNCIL MEETING

By Amy Cherry, Staff Writer

What began as a brief discussion on parking enforcement quickly turned heated during a recent St. Marys City Council meeting.

During the council’s comments portion of the meeting Monday night, Councilman Greg Gebauer inquired about a breakdown of parking revenue generated from between 4-8 p.m. as compared to that collected from 7 a.m.-4 p.m. Gebauer stated over the weekend he witnessed people trying to patronize downtown on Saturday from 6-7 p.m. only to receive parking tickets.

"Ticketing after 4-5 p.m. is defeating the purpose," Gebauer said regarding people attempting to promote downtown business.

Councilman Ned Jacob quickly countered Gebauer, defending the city’s parking enforcement.

"If Gebauer thinks only people using the meters during the day should have to pay instead of those using them at night," he said. "City Manager Tim Pearson may not get there yet." Councilman Jacob quickly turned heated during a discussion on parking enforcement and the city’s ticketing system.

Another issue Gebauer sees under the council’s purview is parking during the day should have to pay instead of those using them at night.

In the past when I’ve given a break down on parking revenue generated from between 4-8 p.m. as compared to that collected from 7 a.m.-4 p.m., Gebauer stated.

"Ticketing after 4-5 p.m. is defeating the purpose," Gebauer said regarding people attempting to promote downtown business.

### State and county budget

By Joseph Bell

Daily Press Editor

Wednesday, March 23, 2016

The university president, speaking Tuesday morning during an Elk County Board of Commissioners meeting, said he doesn’t think we want to see.

"May I don’t think that way, and if the far-fetched plans do go out, it’s not just as easy as coming in Mon..."
Office of Attorney General reaches agreement with UPMC

HARRISBURG — Pennsylvania Attorney General Kathleen G. Kane announced the entry of a final order, after the conclusion of a final order with the University of Pittsburgh Medical Center (“UPMC”), regarding its acquisition of Jameson Health System, Inc. The final order requires that UPMC Jameson Health System, Inc., a non-profit corporation based in New Castle, would substantially lessen competition in one or more relevant healthcare services markets in violation of state and federal antitrust laws. The office was also able to prove that Jameson failed to show significant financial challenges.

The office proposed that UPMC Jameson Health System, Inc., implementing a remarketing process to determine the best use of the facilities and assets, as the only viable alternative buyers other than UPMC, western Pennsylvania’s largest integrated health system, that the process resulted, and those firms submit written proposals to acquire Jameson. Of those three, the Attorney General’s office believed that at least two qualified high requirements that were more relevant healthcare services markets.

The office of Attorney General throughout this process has worked to protect the rights of patients and the public, the offices in Lawrence County and the surrounding communities. The filing order, the ruling, in January that other bidders were not satisfied the bid requirements that Jameson received a qualified bid from another arbitration. Referring Federal District Court Judge, who served as arbitrator, ruled that the arbitration.

In the event of a controversy, the order, UPMC has agreed to follow the decision of the highest authority, the Pennsylvania Attorney General to select an unbiased arbitrator to resolve disputes.

Hine to sing at Pitt-Bradford

BRADFORD – The University of Pittsburgh at Bradford will host Emily Hine March 24 as part of its University Speaker Series. Hine will talk about “Being Human: Compassion, Mindfulness and the Responsibility of Philosophy.”

Hine has more than 25 years experience in fundraising, philanthropy, and public speaking and has raised 150 million for nonprofit organizations.

Parking

Continued From Page 1
He added the issue stems from businesses during the winter months, as employees are trying to have the snow cleared.

“If I had it my way, we would not have to pay for parking,” he added.

Jacob posed the question, saying that it would be a city who would fund various street maintenance projects and plowing without the parking revenue.

The events were attended by the Congresswoman, Pennsylvania, her husband, and the police chief who said he was able to provide the revenue the events in the hours.

The new fees are not a “no-brainer.” People are getting used to the parking fee, which comes more than a billion dollars, Gehauer said. It is not until the new parking enforcement system, which would cost rather than a city function. He said, “We have always had the parking issue changed.“

Keeping spices class may stop virulent bacteria strain in its track

The University at Buffalo's Lippman-Handelsman Center for Advanced Biotechnology is pleased to introduce Dr. Rodney J. Landreneau, board certified thoracic surgeon, to the Lippman-Handelsman Center for Advanced Biotechnology. Landreneau is a native of New York City, who served as Chief of Thoracic Surgery at Lenox Hill Hospital, New York City, and is a board certified thoracic surgeon.

He received his medical degree from Louisiana State University School of Medicine, in New Orleans, Louisiana, and completed his general surgery residency at Parkland Memorial Hospital in Dallas, Texas. He completed a thoracic and cardiovascular surgery fellowship at the University of Michigan in Ann Arbor, Michigan.

Dr. Landreneau’s extensive career in thoracic and oncologic surgery included directorships of prestigious oncologic and lung institutes throughout the United States. Considered the leading lung surgeon in western Pennsylvania, Dr. Landreneau joined the faculty of the University of Pittsburgh in 1990. With more than 25 years serving western Pennsylvania, Dr. Landreneau will now bring his skill and experience to the Pittsburgh area.

Landreneau was named by the Pittsburgh Business Times as one of Pennsylvania’s Top Physicians in 2009, 2010, and 2011. He has been listed in Best Doctors in America each year since 2005, was named to Pittsburgh Magazine’s “Best Doctors in the Area,” and named by his peers as one of the nation’s top physicians in Thoracic Surgical by Castle Connolly.”

Dr. Landreneau has held multiple positions throughout his career, including being named to the editorial board of the Journal of Thoracic and Cardiovascular Surgery, and has served as an invited speaker at many national and international meetings. He has also authored or co-authored more than 100 manuscripts or abstracts.

To make a reservation, call 412-377-3700 or visit the Lippman-Handelsman Center website at www.phhealthcare.org.

The Perils of Cooking Intelligence: From Vietnam to ISIS

Today is Wednesday, March 23, the 83rd day of the year. There are 283 days remaining until the end of the year.

Today's Highlight in History: In 1919, Benito Mussolini founded the Fascist Party, which governed Italy from 1922 to 1943.

Today's Birthday: The woman, but the rape charge was dropped and the players continues to play. Stephane Lambiel of Switzerland is 28. In 2008, he married his wife, the ambassador to Nepal.

Today's Anniversary: In 1406, English troops led by Edward, the Black Prince, defeated the French at Poitiers, ending the Hundred Years' War.

In 1940, the United States Navy and the Massachusetts Institute of Technology began the development of the Navy's first electronic computer, called ENIAC.

In 1956, the U.S. Supreme Court ruled in Brown v. Board of Education that segregation in public schools was unconstitutional.

In 1967, the U.S. military rescued the AmericanCREAMER, a military transport plane, from the Ho Chi Minh Trail in Vietnam.

In 1983, the U.S. military launched a successful air strike against Libyan military targets in Tripoli and Benghazi.

In 1990, the U.S. military invaded Kuwait to protect oil supplies.

In 2001, the U.S. military launched a surprise attack on Afghanistan to eliminate the Taliban and Al Qaeda from that nation.

In 2003, the U.S. military launched a war against Iraq to overthrow Saddam Hussein.

UPB officials to hold Kessel Athletic Complex usage meeting

BRADFORD — Members of groups who want to use the Kessel Athletic Complex at the University of Pittsburgh at Bradford this summer are invited to a meeting later this month to learn about the complex’s policies and guidelines.

Best Rider, Pitt-Bradford’s athletic director, and Dan Freeburg, facilities and fit- ness center manager, will lead the meeting, which will be held at 7 p.m. Thursday, March 31, in Room 165 on the second floor of the Richard E. and Ruth Ford Carle Student Center. The meeting is open to the public.

Each year, thousands of residents from surrounding municipalities, private donors and Pitt-Bradford have contributed to the facility, and Pitt-Bradford has used the complex to enhance and expand the overall experience.

The project will include preparation priming and finishing coating to ornamental metal surfaces from the tip of the Elk County Courthouse clock tower down to the roof, according to Elk County Commissioner Dan Freeburg.

Then all of the Bradford Youth Soccer, Smethport Youth Soccer, Community Softball and Softball, and Eddyville Girls Softball and Softball players used the athletics facilities at the complex during the 2011-12 academic year. It is labor intensive, plus it requires scaffolding and lifts to access the elevations, compounded with worker safety, security, public safety and Court house operations all being absolute and complicating factors.”

“Passersby can easily see peeling paint in the clock tower area.”

The public is aware of the structural work that we had done to the clock tower and area that was completed last year,” Freeburg said.

He noted one bid was just for the eaves, soffit, fascia and ornamental brackets the entire way around the bell tower, and totaled almost $300,000 alone.

Freeburg said as the job requires a large number of labor hours, county officials felt the project would come with a large pricetag.

“The other painting quotes did not even include that tower, and the minimum was $500,000 without the tower, so we’re happy with this bid,” Freeburg said. “This is specialized work and a huge job going all the way around the building.”

The bid of $261,136 was submitted by Bryn Enterprises, LLC out of Export.

“We are grateful for the support we have received from area municipalities in the past, and even more grateful to those who continue the support,” said Dr. Loring Alexander, Pitt Bradford’s president. “The collective effort enables thousands of residents throughout our region to participate in recreational activities and thousands more to watch those events at a well-maintained facil ity.”

Bonnie start home plate with pair of extra inning contests

St. BONAVENTURE, N.Y. — The St. Bonaven-
ture Bonnies opened their season with a 10-
run victory over Niagara in the season opener.

The game began in the top of the first inning
with Niagara starting Ryan Hackett. He retired
the first two batters, but retired to the mound
with two runners on base. He allowed the first
two Bonnies to score on a sacrifice fly. After
two quick outs, the Bonnies went on to score
nine runs in the inning on a combination of eight
hits and one error.

The game continued with the Bonnies
scoring another run in the second inning on
a sacrifice fly. The Bonnies led 10-0 at the end of
the second inning.

In the third inning, the Bonnies added
seven more runs against Niagara. The Bonnies
scored five runs in the inning on an error,
single, double and two sac fly's.

The Bonnies finished the game off in the
fourth inning with five more runs on a single,
double and two sac fly's. The Bonnies scored
20 runs on 19 hits with two errors.

The Bonnies had a total of eight players
with at least one hit in the game. Matt McCuen
led the team with five hits. He also had four runs
batted in and three runs scored.

Bonnie start home plate with pair of extra inning contests

As a result of the Bonnies' offensive outburst,
the game ended after four innings. The Bonnies
were led by Matt McCuen with five hits and
four RBIs. The Bonnies scored 20 runs on 19
hits with two errors.

The game continued with the Bonnies
scoring another run in the second inning on

Laurie Halse Anderson

BOOK OUTLINE

Advertising

Dear Annie:

I was talking to a friend of mine the other day about the run-ins we’ve both had with our parents in the past. I told her that I’ve noticed that most of the problems that arise in family situations seem to be caused by a lack of communication. She agreed, and said that she thinks the same thing.

I think that she’s right. When there’s good communication, problems tend to be resolved much more easily. On the other hand, when there’s a lack of communication, things tend to escalate quickly.

In my experience, the best way to resolve problems in family situations is to communicate openly and honestly. It’s important to listen to each other’s perspectives and to try to understand where each other is coming from.

I also think that it’s important to set boundaries and to respect each other’s space. Sometimes, family members can get into a rut and stop communicating effectively. In these situations, it might be helpful to set aside some time to talk and to work on improving communication.

Overall, I think that the key to resolving problems in family situations is to be patient and to be willing to work towards a solution. When you approach problems in a positive and constructive way, you’re more likely to find a resolution that works for everyone.

Sincerely,
[Your Name]
Gary Alt to speak at Penn State DuBois for Umbach Lecture

DuBoIS — Former Pennsylvania Game Commission biologist Gary Alt will speak Tuesday about wildlife technology for the Pennsylvania Game Commission’s annual Umbaugh Lecture.

The Lecture is scheduled for 3 p.m., until 5 p.m. on Tuesday, March 24 in 3003 Haney Auditorium. This event is free and open to the public.

Made possible by the generosity of the late Jim Umbach, the Umbach family reserved seats in the fields of science, technology and the humanities in the campus each year.

Alt worked as a wildlife technology biologist for the Pennsylvania Game Commission for over 27 years, and for 22 of those years he led the statewide black bear research and management program while working for the Pennsylvania Game Commission. He will review some of the research projects that he managed or mentored, and discuss the perceptions, observations and challenges of managing these controversial species.

Alt will share his personal and professional experiences as a wildlife management consultant, and discuss wildlife management conflict and controversy. He will highlight his photography and tours led throughout the world to view polar bears, to multiple destinations in Alaska for grizzly bear study, the vultures and cave dwellers in Mexico, and multiple national park destinations in eastern Africa.
